Imagine without the foreground mountains... or maybe there IS a mountain range somewhere in the Great City: http://fc09.deviantart.net/fs29/f/2008/057/0/8/Fantasy_City___Closer_look_by_MiG_05.jpg

View from the Pinnacles

Oh Yes, this is totally a scene from one of the pinnacles of the city:

Life in the Chasms

A little too high-tech looking, but structurally spot on:

Stormy Pinnacles

A storm brews amongst the pinnacles:

Rooftop Rise

A heights district raised up above the rooftops:

Upper Mid Strata

A good perspective showing rooftops, roofs, and chasms:

Even better: <http://lordoffog.deviantart.com/gallery/26931165#/d37s0kn>

Trickle-down Aquatics

An evening view of a water feature as it cascades down from a heights neighborhood, down to the rooftops, and down into a chasm amongst the roofs:

Tower Neighborhood

A pinnacle neighborhood built directly covering an entire heights neighborhood:

Same with bridge to another heights area:

Warrens Cavern

Sometimes the warrens open up into large spaces. Here's a very nice warrens neighborhood. Please ignore the blimp. Note the chasms
