

## "Snapshot"

Code-name of the closest thing to a leader the underground had, she now left the underground for some reason. Clearly a medical professional (likely a doctor), she is also pretty talented with her submachine guns.

## "Benny"

Code-name of a psion member who approached Mai to train her.

## Doreen

Code-named "Veronica," Doreen is an elderly mystic who approached Mai after Benny, and introduced everyone to the underground.

Axe's favorite toy:

## "Darcy"

Axe's daughter, cyborg escapee, and freelance freedom fighter (depicted as first seen, all shot up). Leo lead her to the underground, which Axe had been keeping a secret from her.

As Leo first saw her:

Cleaned up back at the base:

## "Loris"

Code-name of an Asian male member who was nearly killed by the long-armed monster that hitched a ride under the van.

## Dr. Pahail Farouk

Code-named "Faith", a formerly missing empathic member who was co-opted by the "Bog God" of Volo marsh. It's clear that Loris has a relationship with Faith.

## "Felix"

A small anglo guy with an officious manner who usually keeps quiet and isn't often seen at the base.

## "Panix"

Code-name of a sorceress "affiliate" of the underground. Former member of the Order of the White Circle, and now a member of yet another order.

## "X"

The "Grey" alien that the underground has retrieved from the Union Memorial Cemetery near the Craft bar.

## Delphine

Owner of Delphine's books, and a talented sorceress. Like Panix, not a member of the underground, but one who is becoming more and more sympathetic.

## "Professor"

Code-name of a member who seems to be missing or on sabbatical.

---

## The Van

An important member of the team. Got very beat up over time.

Replacement van stolen by Ezra when it was filled with dead dogs in plastic bags.
