==== Karbon & Khrome =====

1. Karbon: The human form before modification. Fierce flesh, but fragile Flesh. The raw clay of creation.

2. Khrome: Human 2.0, cybernetics that wire the mind, add chrome and steel to the limbs and body, and the wonders that technology holds for tomorrow's humans, today.

Karbon & Khrome is an old school game in form, function, and spirit. Welcome to the future born in the eighties.

Navigation

• Abilities: The Ability Scores for Karbon and Chrome.
