Furry flintlock fantasy! In the cosmopolitan land of Calabria, where furred and feathered folk of all species commingle, the long reign of the Rinaldi foxes is spiraling toward its end. Don Rinaldi and his firstborn son are dead, his wife Amalsand fled into the wilderness, and his remaining son missing. The other noble houses maneuver about, seeing a chance to seat their own Great King. A band of many-talented adventurers could move history, at such a juncture–restore the old order, raise a new one, or seek fortune and glory amid the unrest?
