

Scarcity

Fuels

- Do drives require fuel?
- If so, is that fuel scarce?
 - How scarce (compare to a real fuel on earth)?
- Are these fuels used for other applications?

Ship Building

- Does ship construction require unobtainium?
- Is shipbuilding so complex or resource intensive that it occurs only a few locations (shipyards)?

Communications

- What is the maximum speed of FTL travel (in abstract units)?
- What are the minimum and maximum speeds of Commo bomb transmissions?

Ship Operation

- Are starships capable of atmospheric operations?
 - If so, are they streamlined? Or is their method of movement such that air resistance is not an issue (like anti-grav)?

Combat

- Do fighters exist?
 - Why?
