

Duties in Paradox

[Paradox](#) is the latest attempt to create a viable system for [Karbon](#).

Each Agent in the game has [Features](#) that connect them to duties in play. Here are the duties described with sample Features. In addition, each Duty is linked to four [Simple Steps](#). Two of these simple steps are specific to that Duty, one is a common simple step they are better at, and the last is a simple step from another Duty they share.

Bruiser

The Bruiser is the ganger, the street thug, the hired muscle. They are similar to the soldier, but travel in the world of the Syndicate (criminal underground).

- Example Features:
- Simple Steps: [Coerce Other](#), [Work Syndicate](#), [Brute Force](#), [Lead Other](#)

Captain

The Captain is the leader, and doesn't need a boat per say. Your boss at work is the Captain, as is a CEO. They are a leader among men.

- Example Features:
- Simple Steps: [Inspire Other](#), [Work Angle](#), [Audacious Stunt](#), [Persuade Other](#)

Doctor

The Doctor is a specialist of some note. They need not be a medical doctor, just accomplished in a technical field.

- Example Features:

Ghost

The Ghost is the invisible man. In the world of Karbon, a Ghost has wiped their identity and simply doesn't exist. When someone wants something done off the records, they find a Ghost. They are data specialists like Hackers, but very different in social circles. Hackers live on the wire, and Ghosts live in the shadows.

- Example Features:
- Simple Steps: [Run Silent](#), [Work Shadows](#), [Help/Hinder Other](#), [Know Somebody](#)

Hacker

The Hacker runs on the wire (think internet x1000), operating outside all authority. If there was a common criminal of the world of Karbon, they would fit the bill. They are similar to Ghosts, but travel in different circles. Hackers live on the wire, and Ghosts in the shadows.

- Example Features:
- Simple Steps: [Work Wire](#), [Run Smart](#), [Help/Hinder Other](#), [Run Silent](#)

Investigator

The Investigator is the detective, the hunter, the one searching for solutions to problems. They may or may not be an actual detective or private eye, since many others (reporters for instance) are investigators too.

- Example Features:
- Simple Steps: [Examine Details](#), [Interview Other](#), [Mark Detail](#), [Know Keys](#)

Kingpin

The Kingpin is just like the Captain but in a specific criminal sense.

- Example Features:
- Simple Steps: [Run Syndicate](#), [Know Leader](#), [Play Other](#), [Work Angle](#)

Pilot

The Pilot is the one that navigates you through the world of Karbon, which is large and sprawling. A Pilot doesn't always even operate a vehicle, but they are the navigators and hold all the keys.

- Example Features:
- Simple Steps: [Work Network](#), [Know Keys](#), [Audacious Stunt](#)

Scientist

The Scientist is much like the Doctor. However, while the Doctor is a master of practical application in a field, the scientist is a theorist and creator.

The Technician is a master of modern technology. They are the most sought after of all, because of the immense training needed to master the intricacies of the horribly complex technology in the world of Karbon.

- Example Features:
- Simple Steps: [Work Hardware](#), [Design Solution](#), [Work Intuition](#)
