

Sule Kinall

Part of [Rays of Hope](#).

Training Mar Godo in the use of the force. Quite young with lofty ideals, hidden away by her cousin Cait Mothma during the Jedi purge.

She was initially trained by Luke Skywalker to become a Jedi apprentice, but at the open refusal of accepting a lightsaber (as a horrible tool of war) she and Luke both agreed her destiny lied elsewhere.

Dislikes: Starships, metal, processed air. Likes: Vistas, swims at night, fried vegetables.
