

A now largely defunct organization, as most of the members below are dead. These empaths all studied sorcery (mostly with a psionic bent). Panix was once a member of this order, but left when she felt they were starting to become corrupt.

## **Eli Caldwell**

Sorcerer (from the mystic tradition) that had created an out of control Tupla, who was rampaging all over the city, and stalking Max. Now dead.

## **Spenser**

Sorcerer who was looking for something in Eli's apartment. Later tried to recruit Mai. When Leo and Mai followed him through a graveyard, he escaped. Later defected to the Underground to avoid Ariel and Brenna (see below).

### **Ann & Bersk & Matt**

Werebear associates of the society, killed in Union Memorial Cemetery when Leo and Mai followed Spencer. Her lover Bersk is also a member of the Order and a were-bear who was killed at Delphine's. Matt is Ann's brother, and not pleased about his sister's death.

### **Brenna Youngblood**

Spence's extremely jealous (psychopathic, and a paranoid delusional) and highly telekinetic former girlfriend. Now deceased.

### **Ariel Tamanaka**

Leader of the Order of the White Circle. Rumored to be heading up a project to summon a demon and usher in some sort of new reality. Deceased.

## Masters

Rodrigo Masters is a sorcerer involved with Ariel Tamanaka in their current summoning project. Also an “Adept,” a member of the [The Destined](#). Deceased.
